**Open-Ended Questions**

| Respondent | Question Text |
|---|---|
| | Please let us know anything else you would like to share about your instructor (you can also explain any answers from the questions above if you would like): |
| 3079037 | The instructor gave good feedback. |
| 3089426 | The instructor was excellent. |
| 3068386 | Dr. B.<br><br>Thank you for your interaction with the class, for the follow-up questions you ask each week which in my opinion causes us to learn more about the subject matter in question, and for your feedback on my assignments and discussion it help me tremendously to improve on my quantitative analysis skills. Keep up the good work! |
| 3080573 | My Professor was polite, understood my short comings and guided me through the course. |
| 3069925 | Dr. B. is a great instructor. His feedback was specific, timely, and individualized. He made this very difficult class manageable and made me look forward to his comments on my work submitted. |
| 3079036 | This is the FIRST time at Walden, that I have given a perfect grade for an instructor I have had. Dr. Banerjee is one of the BEST instructors that I have ever had. His wealth of knowledge, ability to promote further expansion of the analysis is second to none. |
| 3080570 | There were ongoing Walden-associate online technical problems (from week on to week 11) that blocked many of my classmates and I from submitting our discussion assignments to the online classroom forum. The technical support team were baffled. The problem got less severe during the subsequent weeks until week 11.<br><br>I did contact Dr. Banerjee who assured me that I would not be penalized because of these Walden technical difficulties. I sincerely pray that these technical issues are completely resolved before my next class begins.Alma T. |
| | Please share any comments you have about the course aside from the instructor (e.g. course materials, course content, organization, etc.) |
| 3079037 | I think the course was tailored to people that never studied statistics before. I wished university would have offered more options, including more advanced stat classes for students that already had some statistical knowledge.I think this is an excellent class for people that never had statistics but too basic for people that already have some background. |
| 3068386 | Overall a great class! |
| 3080573 | There are many areas which needed more explanation on Internet links so that one can download the relevant information e.g I needed the link for APA style needed for the SPSS tables outcomes to format my tables when putting in word document. Also I needed positive social thinking article links and more links or materials to understand SPSS trivias. |

|---|---|
| Respondent | Question Text |
| | Please share any comments you have about the course aside from the instructor (e.g. course materials, course content, organization, etc.) |
| 3079036 | I did not think the books selected for this course was very good. I think one of the most important things for any book is to have an EXCELLENT index (as in the future, we will use the book as a reference). Unfortunately, I did not find this for the books for this class. I was able to find more information about SPSS and some techniques on the internet as well as other books that I already had. |
| 3073947 | Book required by William E. Wagner, III, not very useful for the level of complexity of the class |
| 3080570 | RE: IBM SPSS: I have used many statistical software through the years. None of them is as user-friendly as the SPSS program here at Walden! Thank you for choosing SPSS for your students. Thank you also for the instructional video and the transcripts for the video. Thank you.<br><br>(1) RE: Academic Advising: I really appreciate Cija Jefferson, my academic advisor. Somehow, someone changed my academic advisor to an undergraduate nursing program. I called and left a message about the problem. Ms. Jefferson immediately resolved the problem, then followed up with me to find out if I needed anymore help. She was professional, courteous and empathetic. Ms. Cija Jefferson is truly an asset to The Walden University.<br><br>For the most part Technical support ad the other academic advisors were great! |
